

search by title, authors, year etc.

see info, references etc. by double-clicking items

The interface is divided into three main sections:

- Left Panel (List View):** A vertical list of research papers. Each entry includes a title and a list of authors with their respective years. The papers listed are:
  - Context-Aware Bandits [2015] S. Li, P. Kar
  - Gaussian Process bandits with adaptive discretization [2017] S. Shekhar, T. Javidi
  - Bayesian Optimal Active Search and Surveying [2012] R. Garnett, Y. Krishnamurthy, et. al.
  - Multi-fidelity Gaussian Process Bandit Optimization [2016] K. Kandasamy, G. Dasarathy, et. al.
  - Survey of multifidelity methods in uncertainty propagation, inference, and optimization [2018] B. Peherstorfer, K. Willcox, M. GunzburgerBelow the list are three horizontal bars representing progress or status for different categories.
- Center Panel (Detail View):** A detailed view of a selected paper. At the top, it shows the title "A Tutorial on Bayesian Optimization of Expensive Cost Functions, with Application to Active User Modeling ..." and the author "E. Brochu" with the year "2010". Below this is a section with a dashed border containing a diagram with several blue and grey rectangular blocks. At the bottom of the center panel is a network graph with nodes and edges, including a node labeled "Optimization".
- Right Panel (Network Graph):** A network graph showing relationships between different items. It features several nodes of varying sizes and colors (blue, grey, white) connected by arrows. On the far right, there are three stacked buttons labeled "S", "C", and "U".
